SCIENTIFIC ADVISORY BOARD

LUNGeVity is proud to be working with a prestigious team of scientists and researchers. These leaders in the fields of proteomics, imaging, biostatistics, immunotherapy and others are instrumental in improving the mortality rates of lung cancer patients. The broad range of expertise on the Scientific Advisory Board direct LUNGeVity on funding a variety of early detection techniques from tissue-based (blood, saliva, sputum) tests to imaging techniques and targeted therapies in order to develop the most promising protocol to reduce lung cancer deaths.

BOARD AND MANAGEMENT LUNGeVity's board of directors, honorary board members, and senior management bring to the Foundation decades of experience in corporate management and philanthropy. They bring expertise in law, finance, marketing and communications, organizational best practices, and strategic planning to their governance of the organization. In addition, because many have been personally touched by lung cancer, the directors and management team know the urgency associated with lung cancer research. They lend their proficiency, knowledge, and hearts to our endeavor to eradicate lung cancer through research.
