Labor, and Pension
Committee on Education and the Workforce
Washington, DC 20515

The Honorable Mark DeSaulnier
Ranking Member
Subcommittee on Health, Employment,
Labor, and Pensions
Committee on Education and the Workforce
Washington, DC 20515

Dear Chairwoman Foxx, Ranking Member Scott, Chairman Good, and Ranking Member DeSaulnier,

Thank you for holding the hearing entitled *ERISA's 50th Anniversary: The Path to Higher Quality, Lower Cost, Health Care* to commemorate the 50th anniversary of the Employee Retirement Income Security Act (ERISA). As the Committee considers legislation to bolster and improve ERISA, the below 107 patient and provider organizations urge you to mark up and advance HR 2630, the Safe Step Act.

Insurance-mandated step therapy is a utilization management protocol that requires patients to try and fail on one or more insurer-preferred treatments before the plan will cover the treatment initially selected by the patient and their provider. When medically inappropriate, step therapy delays patient access to needed treatments and can lead to severe or irreversible health consequences. HR 2630, the Safe Step Act, would ensure that employer plans, and the pharmacy benefit managers that support them, offer a timely step therapy exceptions process for patients and their providers.

The Safe Step Act would complement the pharmacy benefit manager transparency provisions under consideration by the Committee by improving patient access to needed care. The bill would also update ERISA in line with medical practice standards and Medicare. For more information on how the Safe Step Act pertains to ERISA, please see the [Safe Step Act Ad Hoc Coalition's response to the Committee's request for information](#).

Thank you for your consideration of HR 2630, the Safe Step Act. We look forward to working closely with the Committee to help patients access needed care and maintain their work productivity. If you have any questions or would like additional information, please contact Sarah Buchanan, National Psoriasis Foundation, at sbuchanan@psoriasis.org.

Sincerely,
